# The 89<sup>th</sup> Scottish International Salon of Photography 2008

## Chairman's Message

This year's Salon marks 10 years since the Scottish Photographic Federation took on the task of running the Scottish Salon. Prior to this Clubs volunteered to host the Salon on our behalf but it became increasingly difficult to get Clubs to take on the huge commitment every year.

10 years on some things have not changed, while others have. The advent of digital has seen peaks and troughs develop for prints and slides. Happily many of the entrants who were entering 10 years ago, continue to support us to this day.

This year saw the introduction of Dual Projection, replacing the separate slide and electronic imaging sections of last year. The additional new sections of Nature and Photo Travel proved very successful with a total of 3450 images being entered for the three sections, more than doubling our slide entry of 10 years ago!

Prints were down on last year, mainly on monochrome, but were on a par with previous years with 732 Mono and 1116 Colour entered, giving a total entry of 5298 images, the highest yet, and over 1800 more than 10 years ago.

Many Salons have reported a reduction in prints with the introduction of digital, we would hope that the ease of entering digital files does not threaten the volume of prints available for Exhibition. As we frame our Exhibition, we are more than happy to receive unmounted prints from UK entrants as well as from abroad to help keep costs down.

A big thank you to the team of individuals who had the mammoth task of getting all the entries ready in a very short timescale, and for everyone who helped out on the judging weekend. Thanks also to the Judges, who were worked extremely hard over the weekend and did a superb job!, also to Paisley

Photographic Society for the use of their premises, Dumfries CC for the loan of frames, and Paisley Museum and Art Gallery for this years venue for the exhibition.

## STATE OF THE ART TECHNOLOGY

### THE DIFFERENCE IS CLEAR

Recently, DCS has been re-tooling its industrial and domestic drain cleaning division quite dramatically. You may have already noticed our new fleet of Aquatech Jet Vacuum Combination Units are now fully operational. This equipment ranks amongst the best in the world and we feel that it gives us additional scope to offer you a greatly improved range of services at a very competitive cost. The flexibility of this particular equipment is proving to be an enormous success.
