### **Reflections lecture: Imaging in the 21st Century - The Transformation of Photography Presented by Babette Warendorf**

We live in a world where trillions (yes, trillions) of images are produced every year. However, not many of them are the product of photography, a lens-based practice that employs a sensor or film to make an image. With the rise of new technologies, there are now numerous imaging practices alongside photography. There are more image sensors in devices other than cameras, and cameras themselves may be better understood as capturing data rather than pictures. Infographics, interactives, and virtual reality are also increasingly important in visual stories. Given all this, how can we understand imaging in the 21st century?

### **Inspiration Talk by Tom Stoddart**

## AWARDS FOR PHOTOGRAPHIC MERIT IN AUDIO VISUAL

*If you build it, they will come\**

We have received virtually no expressions of interest and no applications to take part in an Adjudication for an APM in AV but it has been suggested that, if a date was set, applications would be forthcoming.

**Saturday 26 May & Sunday 27 May 2018.** (venue tbc)

For this to proceed the APM Secretary will need to have received at least 8 applications by 31 December 2017, so you have plenty of time to get organised. If we do not receive sufficient applications for at least one day we will have to cancel the Adjudication. Remember that the PAGB welcome "Photo Harmony". <http://www.thepagb.org.uk/awards/apm-awards-av/>

# Workshops in Photoshop & Printing

In conjunction with

with Libby Smith & Rod Wheelans

Libby and Rod have been delivering Photoshop and Printing lectures, classes and workshops for years and came together to provide and present courses for PermaJet. Although they produce very different photographs, they found that they had a great commonality in approach and technique, sharing many ideas about the use of Photoshop and Inkjet Printing.

Despite the popularity of these courses, they felt that, there was a need for training to be provided locally to Federations and Clubs.

With the full agreement of PermaJet they now offer, as i2, full day workshops in both subjects. Their Printing Workshop has proved particularly popular and they have delivered it at venues all over the UK and Ireland. They offer something for everyone, whatever their current skills, and delegates will be able to take their post processing and printing to a much higher level.

i2 bring everything with them, except a projection screen. This includes a projector and laptop, an Epson R3000 printer, calibration equipment and lots of sample prints on different papers. A comprehensive booklet of notes is provided for every delegate. As a bonus, they will also bring PermaJet paper which they can sell at a much reduced "show offer" price.

They charge a flat fee plus mileage at PAGB rates (in one car) and overnight accommodation, only if necessary. The host must also provide a venue with good blackout. Similar courses cost around £60 per delegate and it is suggested that the host Federation or Club can charge a much lower fee to each delegate and may even make a small profit.

Visit their Facebook at <https://www.facebook.com/groups/i2Workshops/> or e-mail [rod@creative-camera.co.uk](mailto:rod@creative-camera.co.uk) for more information.

## i2 PRINTING WORKSHOP IN DUMFRIES ON SAURDAY 16 SEPTEMBER 2017

Normally i2 rely upon Clubs and Federations to organise the venue and the delegates to our workshops but we have received several requests from Individuals who don't have a Club willing to take this on. We are therefore offering a one day Printing Course in Dumfries on 16 September 2017

We have done this before and promised numbers have failed to appear so the Workshop will only run if we can be certain of a minimum of 15 delegates. The day will cost just £30 per delegate and full (non-returnable) payment will be required in August. Register your interest in the first place with [rod@creative-camera.co.uk](mailto:rod@creative-camera.co.uk) and we will supply details in early August. We are confident, from interest already expressed, that we will get sufficient numbers to run the day but we need to be sure.

SOCIETY**

**Dementia  
Friendly**

**East Riding**

*Improving the lives of people with dementia and their carers*

Dementia Friendly East Riding (DFER) is working towards a knowledgeable community in East Yorkshire, where people are more understanding and helpful towards those with dementia and their carers...and if a picture speaks a thousand words then a great photograph will help us....

This photography competition is designed to increase people's awareness of dementia, challenge misconceptions and highlight our hopes for all those affected by the condition. We are therefore seeking photographs from which we can select the best pictures to form part of a travelling exhibition. Winners will have their images displayed over a six to nine-month period from September 2017 at exhibition venues throughout East Riding of Yorkshire and Hull. There are no prizes but your work will be widely seen in Hull and East Riding area.
