On an individual basis Brian Clark of Dundee CC has been awarded the FIAP Gold Medal, the highest individual award possible in the Mono Biennial. So many congratulations to Brian, who I note, also won a FIAP Gold Medal in our previous World Cup win 2010 when the theme was "Winter on Rannoch".

Our panel of mono prints will take centre stage at the FIAP Congress Meeting to be held in Durban, South Africa 11th – 17th Aug 2018. The South African Federation will also arrange for the Mono Prints to be exhibited at various venues throughout the country to promote FIAP in Africa.

## Method of Scoring

It is important to be aware that all the Biennials are judged initially as "Individual Images" and then a "Coherence" mark is awarded by viewing the panel of images and considering the chosen theme of the entry. The importance of this Coherence mark, which carries a maximum score of 60 points, was well illustrated in determining the ultimate winner of the Mono Print Biennial when Scotland's excellent Coherence enabled us to overtake Russia, for the top place.

I would like to take this opportunity to thank everyone who supported us by forwarding images, I think it shows that Scottish photography is alive and kicking. Catalogues will be produced by the host nations and I will of course keep you updated with any further developments.
